SPONSORSHIP PROSPECTUS

Global BASIS Hackathon 2027 | AI for Human Impact

Theme: AI for Human Impact · BUILD. INNOVATE. IMPACT.

A student-led, fully online BASIS network hackathon · Build Week: February 6–12, 2027

Program	Global BASIS Hackathon 2027 — AI for Human Impact, a seven-day student-led challenge to build AI-powered solutions to real human needs
Event Calendar	Registration opens Nov 22, 2026 → Registration closes Jan 16, 2027 → Build Week Feb 6–12, 2027 → Judging Feb 13–19 → Winners announced Feb 20 (all dates Pacific)
Hackathon Week	Build Week: Feb 6–12, 2027 · Judging: Feb 13–19 · Winners announced: Feb 20 (Pacific Time)
Eligibility	Grades 9–12 at any BASIS school worldwide; minors need parent/guardian permission
Format	Fully online; teams of 2–4 students (no solo entries); teammates may attend different BASIS campuses
Focus Areas	Health · Education · Accessibility & Inclusion · Sustainability & Community; every project enters one of the four tracks
Hackathon Tracks	AI + Health · AI + Education · AI + Accessibility & Inclusion · AI + Sustainability & Community
Hosts & Speakers	Hosts: Stanford NNEA and BASIS Independent Silicon Valley. Speakers: Lawrence Fung, Sara Kolb, and Yu Sun.
Fiscal Sponsor	Event funds are held on HCB, the fiscal sponsorship platform of The Hack Foundation (d.b.a. Hack Club), a 501(c)(3) nonprofit. Donations: hcb.hackclub.com/donations/start/basis-global-hacks
Platform	Devpost registration and submissions at basisglobalhackathon.devpost.com; demo video, project write-up, and public GitHub repository required
Prize Pool	$10,000+ in prizes: one overall Grand Prize; 1st, 2nd, and 3rd place awards in each of four tracks; and three special awards
Website	https://basisglobalhacks.com/
Contact	bisvglobalhackathon@gmail.com

Why This Event Exists

One network. One challenge. Many campuses. AI for Human Impact is a seven-day online hackathon for BASIS high school students, with 14 BASIS co-organizer schools in the United States (Dublin and Fremont) and China (Beijing, Chengdu, Guangzhou, Hangzhou, Huizhou, Nanjing, Shenzhen, Sichuan, and Wuhan). Teams create practical AI solutions for real people across four tracks: Health; Education; Accessibility & Inclusion; and Sustainability & Community. Every project enters one of these four tracks. Workshops, mentors, and community support help teams turn an authentic need into a working prototype.

Students compete in teams of 2–4, and teammates may attend different BASIS campuses. All event dates follow Pacific Time. Minors need parent/guardian permission. Projects must use AI meaningfully, involve at least one real user in design or testing, and submit a demo video, project write-up, and public GitHub repository. This global online event complements BISV Hacks rather than replacing it.

Why Sponsor

- Reach student AI builders across the BASIS network, including schools in the United States and BASIS China co-organizers. Current sponsors include Coding Mind, InGenius Prep, Yale Healthcare Hackathon, Inclusive Coding Festival, MindDo.AI, and California Science and Technology University (CSTU).
- Put your brand next to a cause — AI used for social good and accessibility — that's easy for students, parents, and educators alike to get behind.
- Contribute expertise through approved mentoring, workshops, or track-related recognition while student teams maintain independent project choices and judges retain full impartiality.
- Extended visibility: proposed sponsor recognition on the event website, participant communications, and winner announcements surrounding the February 2027 event, subject to agreement.
- Low-lift participation: judging runs asynchronously Feb 13–19. The judging panel is Lawrence Fung, Yu Sun, Casey Ma, Tingting Chen, Jun Hu, Jin Xu, and Glen Qin.
- Tax-deductible support: event funds are held on HCB, operated by The Hack Foundation (d.b.a. Hack Club), a 501(c)(3) nonprofit, so eligible contributions are tax-deductible and receipted.

Community giveback — 7% of all company and outside sponsorship contributions will support Friends of Children with Special Needs (FCSN). This commitment is part of the event's social-impact mission; financial processing remains subject to applicable school and fiscal approvals.

Prize Awards & Distribution

The prize pool totals $10,200 across 16 awards. One Grand Prize of $1,500 is awarded across all four tracks. Each of the four tracks also has one 1st Place winner ($1,000), one 2nd Place winner ($500), and one 3rd Place winner ($300). Three Special Awards of $500 each are also given: People's Choice (voted by participants and attendees), Most Innovative Use of AI, and Best Presentation. Individual funding commitments will be confirmed separately.

Prize category	Total amount	Awards	Distribution
Grand Prize	$1,500	1	One winner across all four tracks
1st Place	$4,000	4	One winner per track ($1,000 each)
2nd Place	$2,000	4	One winner per track ($500 each)
3rd Place	$1,200	4	One winner per track ($300 each)
Special Awards	$1,500	3	People's Choice, Most Innovative Use of AI, and Best Presentation ($500 each)
Total Prize Pool	**$10,200**	**16**	

Sponsorship Sponsor Levels

Sponsorship is offered at four levels: $1,000, $3,000, $5,000, and $10,000. Benefits build cumulatively from one level to the next. Seven percent of every company and outside sponsorship contribution supports Friends of Children with Special Needs (FCSN). All recognition and speaking opportunities are subject to school and organizer approval.

Sponsor Level	Contribution	Focus	Recognition & Benefits
Community Sponsor	**$1,000**	Program	Name and logo in the website sponsor section; recognition in the post-event sponsor thank-you and winner recap.
Innovation Sponsor	**$3,000**	Track	Everything in Community, plus logo in event communications, one sponsor spotlight, and optional recognition with a selected track, subject to availability and approval.
Impact Sponsor	**$5,000**	Featured	Everything in Innovation, plus featured website placement, acknowledgement in opening and winners announcements, and the opportunity to propose a workshop or mentor session subject to approval.
Presenting Sponsor	**$10,000**	Lead	Everything in Impact, plus highest-tier homepage/hero logo placement, presenting sponsor recognition in primary event materials, and an optional prerecorded welcome message subject to approval.

All four sponsorship levels support prizes, event operations, and participant resources. A confirmed 7% of each company and outside sponsorship contribution supports Friends of Children with Special Needs (FCSN). Sponsor

benefits are cumulative, contingent on school approval, and do not grant influence over judging outcomes or access to private student information.

Other Ways to Support

Support	How It Helps
API / compute credits	Given directly to participating teams so they can build with your product for free.
Guest judges / mentors	Engineers and researchers may judge submissions asynchronously Feb 13–19, share expertise, or support participant workshops and mentorship.
Software / cloud licenses	Tooling, hosting, or design-software licenses for participants.
Prize support & event merchandise	Approved prize contributions or branded merchandise for participants, subject to HCB's spending and payment rules.

Program Governance & Fiscal Sponsorship

The program operates under BASIS school oversight, with a faculty advisor guiding academic and compliance matters and a student organizing committee (led by Michael Chang, Grade 12, BASIS Independent Silicon Valley) handling day-to-day coordination. All use of the BASIS name and branding, external partnerships, and financial arrangements are subject to applicable BASIS policies and school approval. Student organizers do not personally receive or manage corporate sponsorship funds.

> The event's funds are held on HCB, the fiscal sponsorship and financial management platform of The Hack Foundation (d.b.a. Hack Club), a 501(c)(3) nonprofit that supports teen-led projects and hackathons. HCB receives eligible tax-deductible contributions, tracks sponsor funding, and administers approved prizes and program expenses; winning teams are paid by check through HCB. HCB's published fiscal sponsorship fee is 7% of incoming funds, separate from the event's confirmed commitment to direct 7% of all company and outside sponsorship contributions to Friends of Children with Special Needs (FCSN). The FCSN allocation, prize payments, and any transfers will be coordinated in compliance with HCB's requirements and applicable school approvals.

Next Steps

To sponsor at the $1,000, $3,000, $5,000, or $10,000 level, or to offer in-kind support, contact bisvglobalhackathon@gmail.com. We will confirm your tier, recognition benefits, and any logo or approved track association. Event website: https://basisglobalhacks.com/. Devpost: https://basisglobalhackathon.devpost.com/.

Thank you for investing in the next generation of AI builders.
